

INVESTMENT MANAGER STRUCTURE

It's important to understand how your investments are managed when you invest with Mercer as a member of the NZAS Retirement Fund. The below diagram illustrates how Mercer works with underlying fund managers who are specialists within their particular investment sector.

Rather than managing investments directly, Mercer partners with a team of expert external managers who oversee your funds on behalf of the NZAS Retirement Fund. This collaborative approach ensures your investments benefit from specialised expertise and diversified management, helping to secure your financial future with confidence.
